Keep my head up (door Billy Leeuwin)

So much confusion in my head
Holding me down, driving me mad
I gotta slow down before I crash
I won't stand still, I go too fast
Have I done what I had said?
Wake up in the morning, getting out of bed
Bend my knees, saying a prayer
And thank the Lord for I am blessed

If I just stop and take some time to be free
See my reflection in the mirror say, be who you wanna be
So I stand up and I just give myself a try
I cry and I fight but I will keep my head up high
I keep my head up high

I keep my head up high
Say I cry and I fight but I will keep my head up high
I keep my head up high
I keep my head up high
Say I cry and I fight but I will keep my head up high
I keep my head up high

It's an illusion, to think that life will always be fine
It's an illusion, to think that we can't turn the hands of time
We gotta deal with this pain inside, cause that is life
And if the way that we're living is wrong, we have to go right

If I just stop and take some time to be free
See my reflection in the mirror say, be who u wanna be
So I stand up and I just give myself a try
I cry and I fight but I will keep my head up high
I keep my head up high

I keep my head up high
Say I cry and I fight but I will keep my head up high
I keep my head up high
I keep my head up high
Say I cry and I fight but I will keep my head up high
I keep my head up high

La la la love *(door Billy Leeuwijn)*

I've been through the storm and crossed over seas
They ring the alarm when they're crossing me
I was a bad man with a stone core heart
The things that I did was the opposite of love
But now I see the light from within the dark
Now I put my hands up to make a sign of love

Chorus
La la la love

Eyes open, let there be hope
If the world starts praying, I'll let everybody know
So I found safety and blessings from the Lord
People come together, let us focus on the world
Let us come together with our hand up on the sky
So we can pray for better where the truth is no more lie
So fight for it until you die
Love is the power, let me see you make a sign of love

Chorus
La la la la love

Bridge
If you feel the power
Then throw your hands off
We have to come together
To make a sign of

Chorus
La la la la love
